

**CENTRAL INTELLIGENCE AGENCY**  
WASHINGTON, D.C. 20505

10 March 1982

NOTE FOR: Chairman, National Intelligence Council

FROM: [REDACTED]

25X1

Special Assistant for Nuclear Proliferation  
Intelligence

SUBJECT: Results of Post Mortem Meeting on Memorandums

25X1

1. In a conversation with [REDACTED] Walt Elder (Executive Secretary, NFIB) expressed concern that the Chairman, NIC, could appear to be "tasking" NFIB agencies by virtue of the "recommendation" in paragraph 3 of the original memo to NFIB that you signed on 8 March at my request. Hal Ford thought the most appropriate course would be for the DCI to sign the memo which I've redone to this end. I recommend that you forward it to the DCI by signing the attached note for this purpose.

25X1

2. FYI, the last time we went through an exercise like this [REDACTED]

25X1

[REDACTED] Dick Lenman signed the memo to the NFIB in his capacity as Acting Chairman of the NIC. Among other responses, the Acting Director, DIA, in a memo to you (28 Jan 1982) committed the DIA to substantial additional work on the subject especially on "the critical question of [REDACTED] strategic and doctrinal thinking on the role of nuclear weapons. The memo concluded: "DIA believes the post-mortem session on [REDACTED] was a useful discussion of an important subject, and encourages similar reviews on a selective basis following other national estimates. You can be assured of DIA's full support for such efforts."
